- JAVA
- Sightly(HTL)
- Apache Sling
- Html
- Apache Felix (OSGI)
- AEM
- Maven
- CSS
- Jira
- ServiceNow
- TortoiseGit
- Sourcetree

CERTIFICATION

- ADOBE EXPERIENCE MANAGER SITES DEVELOPER PROFESSIONALS(2022-PRESENT)
- The Complete Java Boot camp.

Experience

- **Cognizant Pun CAT PAT** (04/2022) - (08/2022)
 - Underwent extensive training on AEM versions 6.5 and 6.4, mastering key technologies such as Maven, Core and Advanced Java, Database (SQL), HTML, and CSS.
 - Applied acquired skills by designing a comprehensive case study project. The project incorporated Custom components, editable Templates, Experience Fragments, Sling models, Sling Servlets, Asset Management, Client libraries, and Multi-site Manager, showcasing a holistic understanding of AEM's capabilities.
 - Demonstrated proficiency by successfully completing the training and earning the top position in the training period assessment. Received recognition and rewards from mentors, reflecting dedication, and excellence in learning and application.
 - Gained practical experience by working on various mini projects, solidifying understanding and expertise in implementing AEM solutions and related technologies.

Pearson-Pearson-Quals Touch UI (Cognizant Technology Solutions)

(09/2022) - (12/2022)

- Led the migration of classic UI components to Touch UI custom components in AEM, demonstrating proficiency in developing components from scratch to meet evolving business requirements.
- Enhanced existing components to align with specific business needs, showcasing an ability to adapt and optimize components for improved functionality.
- Successfully executed the conversion of client libraries, listeners, and dialogs from classic to Touch UI, contributing to the overall modernization of the user interface. Utilized Jira for efficient incident management, ensuring a streamlined resolution process.
- Utilized Tortoise-Git and Source-tree to manage code versioning, facilitating smooth code pulls and pushes to Bitbucket, showcasing effective collaboration and version control practices.
- Contributed to the modification of custom components using HTML Template Language (HTL) and integrated client libraries for dialog styles, enhancing the overall user experience and aesthetics.
- Played a key role in QA testing for custom components, providing detailed technical documentation and functionality insights to the business. Ensured the development met quality standards and business expectations.
- Took on responsibilities ranging from client interaction to the testing and implementation of developed custom components, showcasing a holistic approach to the development lifecycle.

Agilent AMS Support Web(Cognizant Technology Solutions)

(02/2023) - (08/2023)

- Drove successful outcomes in Adobe Experience Manager (AEM) with a focus on AEM Sites, Workflow, Asset, and meticulous Metadata Management. Proven ability to manage and optimize complex content systems.
- Navigated a 24*5 rotational shift environment, including night shifts, to promptly address and resolve incidents from service-now in alignment with business requirements. Demonstrated commitment to maintaining the integrity and functionality of AEM-hosted sites.
- Took a lead role in Incident Management, ensuring sites hosted in AEM met operational standards. Responsibly addressed and implemented fixes for reported issues within SLA timelines, enhancing overall system reliability.
- Contributed to the creation of insightful weekly reports through SOP analysis, providing valuable data for decision-making and continuous improvement.
- Engaged in partner and manager role changes through the effective use of the Postman Application, showcasing proficiency in leveraging tools for streamlined processes.
- Played a key role in Delta and OT Report Generation to identify delta users, contributing to data-driven decision-making processes.
- Performed manual Sanity Testing across multiple environments, including QA, STG, and PROD, ensuring the smooth functioning of systems and adherence to quality standards.
- Resolved incidents through effective communication with business stakeholders and clients, demonstrating a collaborative approach to problem-solving.

DIRECTV-Acquisition(Cognizant Technology Solutions)

(11/2023) - Present

- Proficient in Adobe Experience Manager (AEM) with a focus on AEM Sites, Workflow, Asset Management, Content Fragments, and Content Fragment Models. Successfully transitioned AEM Sites to Story block, leveraging expertise in creating and optimizing JSON structures for enhanced content management.
- Extensive hands-on experience in the Content Management of Headless CMS using Story block, showcasing proficiency in crafting compelling stories, creating blocks, and developing components to elevate the user experience.
- Expertise in managing incidents through JIRA, ensuring a streamlined process for handling and updating content in response to reported issues.
- Accomplished in updating and maintaining Content Fragments in response to incidents, showcasing a keen eye for detail and commitment to delivering high-quality content.
- Successfully contributed to the migration of AEM Sites to Story block, playing a pivotal role in translating complex AEM structures into a seamless JSON format.
